Counselling in History

Counseling exists naturally throughout human life

"a problem shared is a problem halved"

People try to find out someone where they can share their problems and <u>comfortably</u>

Consulting Platform

Support live meetings for two sides to reach each other easily

"*a platform to bring experts and people who need counseling from experts.* "

Make appointment that suitable for all time zones

Project Goals

Our Project Goals

**Counselling at Any Time & Anywhere**

Worldwide Access

Web Platform

Mobile Applications

Objectives

The Project Objectives

User-Friendly Interface

Stable Video Call System

Responsive Design

Methods

The Project Methods

Project Management Approach

- Agile approach
- Sprint: 2 weeks periods

http://intellspot.com/qualitative-research-methods/

Technical Approach

For The Design Part

- Figma
- Adobe XD

For The Development Part

- *Front-end:* React
- *Back-end:* Python django framework
- *Payment system:* Stripe

Project Work Breakdown Structure for Consulting Platform Establishment

1.1 Planning

- 1.1.1 Work Breakdown Structure
- 1.1.2 Project Schedule
- 1.1.3 Risk Management
- 1.1.4 Quality Management

1.2 Execution and Control

- 1.2.1 Design Interface
- 1.2.2 Development
  - 1.2.2.1 Web Development
  - 1.2.2.2 Android Development
  - 1.2.2.3 IOS Development
- 1.2.3 Integration of WebRTC Tech
- 1.2.4 Implementing Appointment Module
- 1.2.5 Implementing Evaluation Module
- 1.2.6 Testing
 - 1.2.6.1 Client Testing / Public Beta

1.3 Closure

- 1.3.1 Meeting Closure
- 1.3.2 Documentation
- 1.3.3 Creating Closeout Report
- 1.3.4 Release the Project

Project Time Schedule

20/6/2020
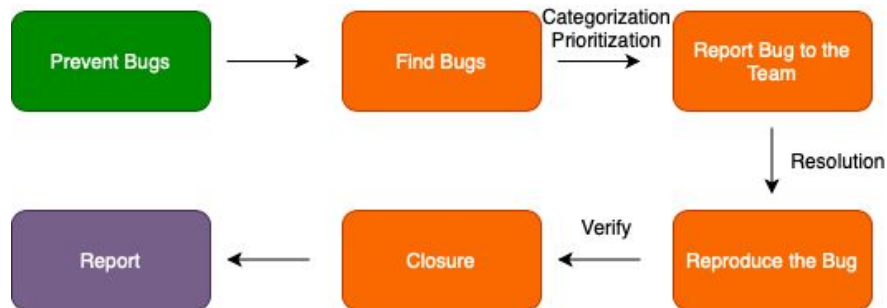

START

5/7/2020

Define Requirements

20/7/2020

High Level Planning

Design & Development

DEMO 1

20/11/2020

20/1/2021

DEMO 2

Integration

Testing & Debug & Fixing

RELEASE

Project Resource Plan

Project Phase	Task	Skills
All Phases	Manages the project	Project Managers
Requirements/ Analysis	Declare functional requirements for the project	IT Analysist
Development/ Design	Design web and mobile applications	UX/UI Designer
Development/ Design	Codes frontend of the applications	Frontend Developer
Development/ Design	Codes backend of the applications	Backend Developer
Development/ Design	Develop mobile applications	Mobile Application Developer
Testing	Create test plan, test cases and testing	QA Analysist

Defect Management Planning

Performance tests, error tests... **will be carried out** *in detail***,**
➔ **on different devices**
➔ **after completing each iteration.**

IMPORTANT: Reducing the likelihood of an error as much as possible

THANK YOU FOR YOUR ATTENTION
